

## Department of the Navy, DoD

## § 701.5

where creation of a record, programming, or particular format are questionable, naval activities should apply a standard of reasonableness (i.e., if the capability exists to respond to a request, and the effort would be a "business as usual" approach, then the request should be processed; however, the request need not be processed when the capability to respond does not exist without a significant expenditure of resources, thus not being a normal "business as usual" approach). In such instances, the requester is advised that no record exists and the FOIA does not require agencies to create or compile a record to satisfy a FOIA request.

(g) *Reasonably segregable information.* FOIA requires that all "reasonably segregable" information must be released when the meaning of these portions is not distorted by deletion of the denied portions, and when it reasonably can be assumed that a skillful and knowledgeable person could not reasonably reconstruct the excised information. When a record is denied in whole, the response to the requester will specifically state that it is not reasonable to segregate portions of the record for release.

(h) *Special mail services.* Naval activities are authorized to use registered mail, certified mail, certificates of mailing, and return receipts. However, this use should be limited to instances where it appears advisable to establish proof of dispatch or receipt of FOIA correspondence.

(i) *Authentication of records released under FOIA.* In addition to the requirements of FOIA, records provided under FOIA shall be authenticated when necessary to fulfill an official governmental or other legal function. Authentication will be made with an appropriate seal. This service is not included in the FOIA fee schedule and naval activities may charge \$5.20 for each authentication.
